Nữ

github.com/nguyenvi110203dzi

## SKILLS

**Frontend:** HTML5, CSS3, JavaScript, Responsive Design.

**Frameworks:** ReactJS.

**Tools:** Git/GitHub, VS Code, Figma (basic), Postman.

## INTERESTS

- Cooking

- Movies

- Music

## PROFESSIONAL SUMMARY

Recent IT Graduate seeking a Frontend Internship to apply system thinking to professional Web/App development. Committed to contributing with meticulous attention to detail and a growth mindset to refine product features and interfaces.

## EDUCATION

**Saigon Technology University**

09/2021 - 09/2025

**Major: Information Technology**

GPA: Good classification

Awarded Academic Incentive Scholarships: Excellent (2021) and Good (2023, 2024).

Completed multiple Web & Mobile projects using ReactJS, Node.js, Flutter (BLoC)

## PROJECT EXPERIENCE

**E-commerce Website (Academic Project)**

09/2024 - 01/2025

**Saigon Technology University**

Built a full-stack e-commerce system for phones and laptops.

Developed frontend with ReactJS, focusing on responsive UI and SEO-friendly structure.

Implemented core features: product listing, cart, inventory, and checkout.

Tech stack: ReactJS, Node.js, MySQL.

**Smart Fridge Management Mobile App**

04/2025 - 08/2025

**(Graduation Project)**

**Saigon Technology University**

Developed a mobile app for personal and restaurant food inventory management.

Built UI with Flutter (BLoC) and backend with Node.js & MySQL.

Key features: food tracking, expiry alerts, stock monitoring, role-based access.

Applied RESTful APIs and JWT authentication.

## ACTIVITIES

**Class Secretary**

09/2021 - 09/2024

**Class D21\_TH03**

Coordinated academic and faculty activities, strengthened communication and leadership skills.

**Coding Challenge Participant**

09/2021 - 09/2022

**Member**

- Practiced problem-solving and debugging through coding quizzes (C++).
